

S'All-In-One Speech Products LLC Launches New Speech and Pre-Literacy Kit at at the ALA Midwinter Exhibit

January 20-23, 2016

S'all-In-One Speech Products LLC is introducing a "first-of-its-kind" kit designed for preschoolers. The S'All-In-One kit contains alphabet & rhyming books, flashcards, games, game boards with tokens and sound decks created to help teach children (aged 2+) pre-literacy, speech, and language skills. Check it out at our small press table # 1660 in the Exhibition Hall (look for the Wizard).

The creators of S'All-In-One, Susan Valentine and Laurie Goodwill, both have advanced degrees in speech/language pathology. Combined, they have over 60 years of experience helping children and adults achieve success in learning speech, language and literacy skills. The S'All-In-One kit was created to address the difficulty of finding age-appropriate materials for the 2+ age group. In creating this product, Susan and Laurie wanted the kit to be easily transportable, inspirational, and available to everyone.

S'All-In-One! So, Have Some Fun!

S'all-In-One is a small women-owned and-operated business headquartered in Western New York. We look forward to meeting you in Atlanta!
